

# ANTIQUE DALLE DE BOURGOGNE

Dalle de Bourgogne is thick, reclaimed limestone from 17th and 18th-century French buildings. The kind of stone that has already proven it can handle centuries of real life. These large flagstone slabs bring genuine character into your space because they're not pretending to be old, they actually are old. You get warm earth tones, soft beige, cream, gray, and brown—that work with any style and never go out of style.
